

Thank you for attending our Happy Hour.

The Environmental, Natural Resources and Energy Law Section is very excited to meet law students who may be working in the environmental, natural resource and energy fields in the future.

Our membership includes attorneys in private practice from firms of all sizes, in-house counsel and government and public-interest attorneys.

We invite you to join our section.

It's a great way to learn more about the practice of these areas of law and to meet and interact with attorneys who are currently working in the field. There is no cost for students to join. It's hard to find a better value anywhere in the Twins Cities.

We also invite you to participate in our website.

It's an easy way to publish written materials and to interact with the attorneys in law firms, government agencies and private practices where you may be working with in the future. If you are interested in joining and/or providing short written case reviews, please sign the sheet at the information table or contact us at our email address below.

We hope that you enjoy the pizza and camaraderie and that we see you again soon.
